

STEP-BY-STEP

MAKING PLAQUETTES WITH TRANSFER SHEETS

Using in this technique, you'll be able to quickly and efficiently produce plaquettes with your choice of pattern and color. Plaquette mats can be found on page 39.

1. Lay plaquette mat over transfer sheet.

2. Using ladle (pg 42), pour tempered chocolate into each space on plaquette mat.

3. Use offset spatula (pg 43) to smooth chocolate over and remove excess.

4. Refrigerate, allowing chocolate to completely crystallize. Once complete, gently remove plaquette mat while holding down transfer sheet.

5. Remove finished plaquettes from transfer sheet.
